## SPECIAL DISPATCHES

### LOUISVILLE COURIER.

#### FROM WASHINGTON.

The Civil Rights Bill will pass. The House has passed the bill by a vote of 119 to 71. The bill is now in the Senate. It is expected that it will pass there also.

A new and very careful census has been made to-day over the coming vote in the Senate on the Civil Rights Bill, and the result indicates that it will be passed over the President's veto.

The calculations made yesterday that Senator Wilson, of New Jersey, and Senator Dixon, of Connecticut, would be present, have been abandoned to-day.

On personal inquiries as to their condition, the Senators have declared that they will be at the Capitol to-day.

The vote will probably be taken on Tuesday, and as it is now stated that more than eleven votes can be obtained in favor of sustaining the veto, while seventeen are required to pass the bill, it is probable that it will be passed.

To-day has been a busy one at the Executive Mansion. Bills and resolutions have been thronged since an early hour this morning; and although the President has had to leave to a large number of guests, there were many who were disappointed.

Among those who were in conference with him to-day were Senators Sherman, Johnson, McPherson, and others. The Government issued an order to-day prohibiting support from being furnished to the President after the first of April.

The President is granting that very few persons now. Three criminals were pardoned by him to-day; among whom was John Smith, convicted of a crime in 1885.

His last message to Congress, which he sent on the 31st of March, was a long one, and it is expected that it will be read to-day.

Official reports received by the Bureau of Agriculture and Forestry from the State of Arkansas, for the month of February, say that the crops were very good.

The number of destitute refugees and those who have been supported by the Government has increased, as anticipated, to nearly one hundred per cent. since the month of January.

The Secretary of the Treasury has withdrawn the permission heretofore granted to manufacture oil and damaged tobacco, with the payment of duties only upon the increased value.

The case of John Jay Brooks, of New York, whose seat in the House of Representatives is contested by Mr. Dodge, will, it is said, be brought on to-day.

The War Department has accepted the resignation of Major General C. M. Dodge, United States Volunteers, to take effect on the 30th of May, 1865.

Election for Members of the Legislature—Conservative Victory—A. A. Johnson, of the Conservative party, was elected to the seat of John Jay Brooks.

The election for members of the Legislature passed off very quietly to-day. Returns, as far as is known, are largely in favor of the Conservative party.

The Radical party expressed themselves determined to prevent the re-election of any member to the Legislature.

This test of party will probably come up for settlement within two weeks, on the re-election of the Legislature.

Just one o'clock this morning, T. E. Spier, who keeps a small store on Broad street, detected some persons boring holes in his front door to effect an entrance.

He detected both parties, and after a struggle through the door, and afterwards found a negro outside with a lead and head torch.

The negro was taken into custody, and the door was closed. The other party escaped.

Judge Nathan Green, principal instructor in the law department of the Cumberland University, and formerly of the University of the Supreme Bench of Tennessee, died at his home in Lebanon on Thursday morning at 5 o'clock.

He was an eminent jurist, and a full of years. The cause of his death was apoplexy.

Meetings of the bar and law students were held and appropriate resolutions were passed.

David Armstrong, a fugitive from justice, has been arrested at Cleveland, Tenn., for the murder of W. T. S. in February.

East Tennessee papers report that the rail and wheat crops as badly damaged by the late cold.

The river is six feet falling. Departures—J. G. Hubbard, Dransville, Bermuda, Louisville, Panama, Welsh river; J. P. Webb, Bristol, New York.

FROM CHICAGO.

Kansas Railroad Progress—Treaty with the Indians—The Kansas Railroad is making rapid progress. The treaty with the Indians is also being negotiated.

FROM CINCINNATI.

Man Murdered—A Flour Mill Burned—A man was murdered in a flour mill. A flour mill was burned down.

# BY TELEGRAPH.

## REGULAR MIDNIGHT REPORT.

### FROM CHILE.

The Regular Flight of Chilean Mail—The Chilean mail ship, the "Atacama," has arrived at Valparaiso. It is expected that it will pass there also.

There is no reliable account of the loss to the Chilean mail ship, the "Atacama," which was wrecked on the coast of Chile. It is expected that it will pass there also.

This is probably an extravagant story. There is great rejoicing at Lima over the victory.

The formations of alliance between Senator Chile and Peru, and the success of that alliance, are being discussed.

The United States minister at Montevideo has been ordered to leave the city. It is expected that it will pass there also.

A letter written by Capt. Stanley, of the Tenth, states that in the battle of the Trenches, the soldiers were very brave.

In fact, it would be perfectly mad to say that the soldiers were not brave. It is expected that it will pass there also.

The Senate Finance Committee has a meeting to-day, and it is expected that it will pass there also.

His Funeral—Some of His Last Conversations—The funeral of the late Senator will be held to-day.

His last message to Congress, which he sent on the 31st of March, was a long one, and it is expected that it will be read to-day.

Official reports received by the Bureau of Agriculture and Forestry from the State of Arkansas, for the month of February, say that the crops were very good.

The number of destitute refugees and those who have been supported by the Government has increased, as anticipated, to nearly one hundred per cent. since the month of January.

The Secretary of the Treasury has withdrawn the permission heretofore granted to manufacture oil and damaged tobacco, with the payment of duties only upon the increased value.
